

ENERGY COMMODITIES SOFTWARE FOR ČEZ GROUP

As a supplier to Deloitte, we created the software tool, through which ČEZ traders manage trading in energy commodities.

Deloitte.

„With the help of the solution from Business Systems, a.s., ČEZ can better trade in energy commodities.“

Ing. Vladimír Vaněk
Partner
Deloitte Czech Republic

INITIAL STATE

- Separate, individual Excel tools used by separate, individual traders, without any overarching framework

PROBLEMS

- Varying procedures
- Inefficient work
- Potentially losing know-how after an employee leaves
- Data security

SOLUTION

- Performed a needs analysis of ČEZ through Deloitte
- Implemented a "fat client" solution, tailored to their needs
- Created the application on the JAVA Platform, Enterprise Edition using Oracle DB for data storage as well as the PL/SQL extension for its stored procedures and functions

BENEFITS

- The work of traders is done more efficiently
- All traders proceed with their work in a unified manner
- Data is recorded centrally
- Transfer of know-how is ensured in the case of personnel changes
- Data is secure

Deloitte.

Deloitte Česká republika has been providing services in the Czech Republic since 1990 in the areas of audit, taxation, legal advice, financial advice, business advice, and risk management. Their clients are among the world's largest companies, public institutions, and startups. Their parent company, Deloitte Touche Tohmatsu, has been operating for more than 170 years in over 150 countries around the world.

Business Systems, a. s. has been operating in the European market since 1997, providing our services in the creation and operation of information systems. Our clients can be found in the areas of banking, healthcare, energy, telecommunications, tourism, aviation, manufacturing, and trade. By applying agile programming practices, we ensure rapid delivery of systems, quick adjustment in the case of changes during the development process, and compliance with contractual deadlines and budgets.
